Analist Group is an Official Partner to Autodesk, Leica Geosystems, Pix4Dmapper, FLIR and Prexiso GPS.

The Pix4Dmapper Software can be installed on 2 devices (1 license = 2 positions).

Updates Policy

Updates regulatory and technological (release of the software) are free for 12 months from the date of purchase.

Technical Support

The purchase of the software consists of 1 year of technical support by telephone and remote computer control.

System Requirements

Windows platforms are required.

Licenses, hardware key and activation code

Every Analist License is provided with a hardware key with activation code. Analist can be installed on more than one device. The software runs only with the key plugged in to the device in use. The Analist trial version does not require the use of the hardware key.
