

# The Evolute Solution for Land Surveying

Drone + GPS + Land Survey Software based on the Autodesk Technology

The Solution is ideal for the Topographer in search of the highest quality in terms of processing, speed and precision. Thanks to the use of DRONES, it is also possible to detect large areas in very restricted time spam and so access new business opportunities. Reduced timing, accuracy and quality all secured in one solution.

IT INCLUDES: DJI Phantom 4 Pro Drone, CHC i-80 GPS and Analist CLOUD Software for land surveying
